Change of firm name

Dear Giuseppe,
Dear Francesco,
Dear Friends,

History and future – these are the elements that form and carry an organisation. History, because this is the ground on which we stand and where we maintain and build our competence – future, because this is the field where we drive the development, the efforts and the ongoing existence.

Dear friends, you have combined both: you have kept the roots and designed your firm in a new shape.

I wish you personally and officially all the best for the development of FDL, good professional success and further on a good atmosphere and environment.

We are happy to have FDL in the Allieuris Group and, as well, to work with you very professionally.

Best regards,

Ulrich
